THIS IS WHAT YOU ACTUALLY GET

One product photo. **Six art-directed campaigns.**

Every shot below was created by AI from a single product image — no studio, no model, no photographer. This is the exact quality that lands in your gallery.

● AGENCY

Bold, big-budget campaign energy — the look national brands pay lakhs for.

● LIFESTYLE

Your product living its best life in the real world — cafés, streets, homes.

● EDITORIAL

Magazine-cover polish with models, light and shadow art-directed to perfection.

● STUDIO

Refined minimal sets — stone, plaster, one perfect light. Pure premium.

● E-COMMERCE

Flawless marketplace-white listings, ready for Amazon, Flipkart & Myntra.

● DIRECTOR'S CUT

Cinematic drama — mood, atmosphere and story, like a film poster for your product.

Fashion, jewellery, skincare, watches, food, décor, electronics — **if you sell it, LetsPost.ai shoots it.** Every image is fidelity-checked by an AI judge so your product looks exactly like your product.
